## Generix Group Named in the 2022 Gartner® Magic Quadrant™ for Warehouse Management Systems (WMS) for the Fourth Consecutive Year

MONTREAL, June 13, 2022 (GLOBE NEWSWIRE) -- [Generix Group](#), a global provider of collaborative SaaS Software solutions for the Supply Chain, industrial, and retail ecosystems, announces having been listed for the 4th consecutive year in the 2022 [Gartner Magic Quadrant](#) for Warehouse Management Systems. Generix Group's two WMS are recognized in the Gartner report.

**They meet all the warehouse management needs of 3PLs, retailers and manufacturers; one thanks to its high adaptability and the other for its functional richness and its ability to operate warehouses integrating a very strong level of automation.**

The Supply Chain sector has recently been facing new challenges that have led companies to challenge and reinvent themselves to remain competitive in their markets. Generix WMS solutions are key elements of the Generix Supply Chain Hub platform. They contribute to the operational excellence of its customers and help them meet today's challenges, providing them with the visibility and interoperability essential to the performance of their logistics operations.

The [SOLOCHAIN WMS](#) solution is highly adaptable to customer needs thanks to its mobile workflow, warehouse mapping and dashboards design. It also offers real integrated project management and documentation tool. The SOLOCHAIN WMS also includes an MES - Manufacturing Execution System - module that enables manufacturers to manage the supply chain edges of their warehouses or factories and to guarantee perfect traceability.

The Generix WMS solution offers a wide range of standard functions, based on a comprehensive background of projects carried out in many industries and geographies. The powerful functionalities of the core solution are complemented by high-value-added extended capabilities for companies wishing to set up a supply chain that is controlled and optimized from end to end: TMS - Transport Management System, OMS - Order Management System, YMS - Yard Management System, Collaboration and Visibility Platform, Analytics, and coming soon RMS - Resource Management System. This platform model improves the time-to-market and economic performance of solutions, helping Generix Group's customers avoid costly and time-consuming developments.

*"We are proud to be named in the 2022 edition of Gartner's WMS Magic Quadrant. We are dedicated, in close collaboration with our customers, to continuously improving the functional richness of our solutions. Once again, this year, we continue to be recognized in an extremely competitive environment and maintain our position as a major player in the industry. As part of the Boost Together 2025 strategic plan, we are committed to further strengthening these investments, building on the agile transformation of our R&D organization. Our customers benefit from the expertise of our highly international and multidisciplinary teams, including our R&D office based in North America,"* points **Isabelle BADOUC, Product Marketing Director, Supply Chain Execution, Generix Group**
